Lumber & Custom Sawing Services

I am a professional wood worker who has become frustrated with the difficulty of finding figured hardwood at a reasonable price. As an environmentalist, I find myself frustrated with the amount of good wood being cut from urban and suburban areas that often end up being made into compost..

I get logs from local tree professionals that would otherwise be chipped and composted for mulch. I have a small bandsaw mill and am willing to saw logs that larger sawmills do not want.

Products & Services

- Flitch sawing
- Quarter sawing
- Quarter sawing
- Air drying
- Kiln drying
- Custom sawmilling
- Hardwood Charcoal
- Firewood

- Custom cabinetry
- Custom furniture
